

Patented Seal Removal Tool Saves Time and Bearings

Chicago Rawhide's Patented Wheel Seal Removal Tool

The time-saving, bearing-saving way to pull wheel seals on steer, drive, or trailer hubs.

The SRT-1 Seal Removal Tool
U.S. Patent No. 5,617,621

Simple design, rugged construction and ergonomic features increase your productivity and eliminate costly bearing damage.

- Saves time — no more laborious prying against bearings or driving out seals.
- Saves bearings — tool grabs seal only and bearings go undamaged.
- Easy to use — wedges and long handle provide exceptional leverage.
- Rubber grip for security in handling.
- Heavy duty construction for long life and dependability.
- Works with steer, drive, and trailer wheel seals.
- Seal is removed intact allowing for proper seal inspection, and failure analysis if required.

The Chicago Rawhide tool makes seal removal easy even on the largest heavy duty wheels. (This demonstration is on a 54,000 lb. GVW dump truck drive wheel.)
